WORK EXPERIENCE

FUZE.CC João Pessoa Aug 2022 - Present	Sr. Android Engineer - Moises (Android TV) Currently working on the development of the Android TV version of Moises, a renowned AI-based application for audio track separation (voice and instruments). The project focuses on bringing this technology to large screens, providing an optimized and immersive experience for musicians in rehearsals and for use in events. - Torus Inc. Worked remotely on the project for Torus based in Salt Lake City, USA, developing a native Android application in Kotlin for residential renewable energy management. The project uses the latest in the Android ecosystem — such as Jetpack Compose, Coroutines, Flow, and MVVM architecture — prioritizing Clean Architecture, high performance, and interface fluidity.
INDRA / MINSAIT João Pessoa Jun 2019 - Jul 2022	Sr. Software Engineer - SEFAZ/PB Worked on a native Android project with Java for SEFAZ/PB for auditing invoices of goods in transit by auditors. - CompaGás Worked on a native Android project with Java for CompaGás in Curitiba-PR for geolocation of its distribution network. - AAPRA (Buenos Aires) Worked on a native Android project with Kotlin for the Government of Buenos Aires for establishment inspections. - Bradesco Worked on two native iOS projects with Swift for Bradesco for vehicle financing and MEI.
SYNCTECH João Pessoa May 2017 - May 2019	Android Engineer Worked on the development of two Android applications with Java for product sales and service in bars and restaurants.

EDUCATION

UNIPÊ João Pessoa 2017	Bachelor's Degree Internet Systems
UNIVERSIDADE CRUZEIRO DO SUL João Pessoa 2024	Higher National Certificate Artificial Intelligence Engineering
